RULES FOR DELIVERY OF LABORATORY EXERCISES

It is compulsory to deliver a report of the work done every week in the laboratory.

The deadline for the delivery is two weeks from the assignment.

Deliver the laboratory programs using the link "**Elaborati**" in the course official page. You can upload your files logging to your page in the "didattica" site.

Save only a **single archive** file per week.
Use **gzip** for archiving **in different directories**
  - the text of the exercise,
  - your solution
  - a report explaining what are the key points of your solution

The archive filename given must comply strictly the following rules:

  S<Id_number>_L<LAB_number>_<your name>.zip

  Examples:
  S111100_L01_SteveJobs.zip
  S123456_L10_BillGates.zip

  Note that:
  The size of the laboratory 2 digits
  The id_number size is 6 digits

Inside your archive file, use a directory for each exercise, with dirname format
D<Exercise_number> Example: **D01**
Name the files inside the directory as:
E<Exercise_number_text>.pdf
E<Exercise_number >.c   (or **.sh or .awk)**
E<Exercise_number_report>.pdf

Programs must be implemented in strict ANSI C and POSIX Unix, avoiding non-standard library functions.
